SATALLITE DISH NOTICE

Homeowners who have satellite dishes will be without service during the re-roofing of your building. Capital Construction will reset the dish to the best of their ability, however if you experience issues please notify your service provider to schedule a service call for recalibration.

If you DO NOT want your satellite dish re-installed once the roof replacement is completed, please contact Josie Flicek before Sept. 30th at 952.222.4004 or at josie.f@capitalmn.com to let her know so it can be properly disposed of.

Thank you,

Capital Construction
