

# STORM DOORS

# STORM DOORS

Every storm door is individually customized to the highest standards in the residential market for homeowners who appreciate impeccable, uncompromising quality.

## PAINT FINISHING SYSTEM

Our paint process is computer controlled, ensuring professional quality every time. Paint is electrostatically applied with a vertical hydraulic reciprocator using a turbo disc that atomizes the paint particles for better coverage of contoured extrusions.

### STORM DOOR PAINT COLORS

↗ Denotes Trending Color

Always refer to our color selector for accurate color representation.

### LIFETIME FINISH WARRANTY

For all Storm Doors

Smooth function is essential. That's why we include a **quality door closer** in every storm door package. Varies by model.

Our air release system features a continuous closing action without the delayed rebound action of previous generation closers.

**Extruded aluminum frame** adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.

You'll appreciate the finished look of our **color matched aluminum installation screw covers**.

Non-operable sashes are secured by our **color matched polycarbonate clips** or an **internal sash lock system**. Varies by model.

**Durable, oven-baked polyester finishes** are backed by a Lifetime Warranty for lasting beauty and low maintenance.

**Corrosion-proof corner gussets** enhance the structural integrity of the door.

Our **bottom expander with sweep** allows for a beautiful custom-fit to any entry. Varies by model.

# STORM DOORS DETAILS

The details are the small things that set our storm doors apart from the competition. A lot of small things add up to a big difference.

## CONSTRUCTION
